

MPR is a multi-discipline, specialty engineering and consulting firm delivering value across three main business sectors.

Power

MPR provides solutions to the industry's most complex technical issues for our domestic and global energy clients.

Federal

We supply engineering and project management services to government agencies, including DOD, DHS and DOE.

Product Development

Our engineering excellence propels new product systems and applications from concept to reality.

Stop by and meet an MPR engineer at one of the following upcoming university career fairs and info sessions:
